Subject: Microsoft settlement

Honorable Judge Koller-Kotally:

We are writing this as a concerned citizens to express our concerns in regards to the Microsoft Proposed Final Judgement.

This Judgement does not deal with any of the three points with which Microsoft was viewed as having violated.

1. Their illegal monopoly
2. To deny Microsoft the fruits of its past violations, nor
3. To prevent any such future anti-competitive activity.

Microsoft should not be granted a government mandated monopoly.

Therefore we urge you not to accept the Proposed Final Judgement.

Sincerely,

Rob and Shirley Hammond
